It is a record of a student's academic performance and is often used to verify a student's qualifications for admission to another school or for employment. The transcript is typically provided by the school or institution where the student is currently enrolled. It is important to note that the transcript is a confidential document and should only be shared with the appropriate parties. It is also important to ensure that the transcript is accurate and up-to-date. If you are a student and you are asked to provide a transcript, it is important to contact your school or institution to request it. If you are an employer and you are asked to provide a transcript, it is important to contact the student's school or institution to request it.
